

The top priority at the Multiple Sclerosis Center of Atlanta is the safety and well-being of our patients and staff. Regardless of the environment, this is our top priority every day. The increasing development and reports of the coronavirus (COVID-19) are high priority for the center. MSCA follows the recommendations of reputable sources to include: [Centers for Disease Control and Prevention \(CDC\)](#) and [Occupational Safety and Health Administration \(OSHA\)](#) related to actions needed to minimize the risk and/or exposure.

To ensure a safe environment for our patients, staff, and essential guests the following has been implemented:

June 8, 2020

Covering your face is mandatory within MSCA as a way to help prevent the spread of COVID-19. [Please see the flyer](#) for more details.

April 27, 2020

In response to the growing number of our patients who require infusion services, MSCA now offers Ocrevus and Tysabri Infusions at two locations: MSCA's main location in Atlanta, GA and Tanner Health System in Villa Rica, GA.

Appointments are available:

Atlanta, GA: Monday -Friday 7:30 am – 4:00 pm

Villa Rica, GA: Tuesdays 7:30 am – 4:00 pm and Thursdays 7:30 am – 3:30 pm.

If you would like to change your infusion location, please contact our scheduling department at 404-351-0205.

April 15, 2020

Ocrevus Infusions will resume the week of April 20, 2020. During the time in which Ocrevus treatment was postponed several patient's infusion schedules were interrupted. To ensure that our valuable patients receive treatment without further delay, we will first reschedule those patients. We are scheduling for all infusion treatments however we ask that you are patient as we ensure the care of you and all patients in which we serve. A temporary schedule adjustment has been made to accommodate treatment needs. Those changes include additional days and extended hours. Please see the below updated schedule.

MSCA Location: Monday- Friday 7:30 – 4:00 pm (**All Infusion Services**)

Tanner Villa Rica Location: Tuesday 7:30 am – 4:00 pm (**Ocrevus Infusion, only**)

Thursday 7:30 – 3:30 pm (**Ocrevus and Tysabri Infusions provided**)

MSCA does adhere to COVID- 19 preventative measures to ensure the safety of our patients and staff.

Patients are not allowed to bring guests excluding essential caregivers.

As we all navigate through the uncertainty of today, we at MSCA are evermore committed to the advanced treatment and care of our patients.

March 23, 2020

March 13, 2020

- COVID-19 Task Force formed at MSCA
- MSCA is a NO TOUCH facility. This means employees and patients are asked to refrain from shaking hands or any physical contact to prevent the spread of the coronavirus. Clinical staff are required to use gloves and other PPE for all patient physical contact.
- Ocrevus infusions have been placed on hold for 30 days. Effective Monday, March 16, 2020
- Pre-Screening for all patients at the entrance will continue.
- Ban of all non-essential visitors will remain in effect.
- Notifications will continue to patients via MSCA website, Follow My Health, Facebook and Twitter.

March 12, 2020

Pre-Screening at the door to restrict patients with symptoms to minimize the risk of exposure.

Restricting all non-essential guests from the Center; such as drug reps, research monitors, etc.

Only essential guests are allowed to accompany patients in the Center. If you have a caregiver that suspects exposure or has symptoms they will not be allowed the Center.

1. Rescheduling any patients with symptoms or under self-quarantine.
2. Providing education to staff related to updates as provided by CDC.
3. Advising staff and patients to stay home if they have symptoms of acute respiratory illness.
4. Increasing disinfecting practices to common surfaces/areas inside our clinic.
5. Promoting basic infection prevention measures to include handwashing and healthy hygiene etiquette.

6. Asking employees who are sick to stay home.
7. Anyone who has a fever or becomes sick while at the Center will be released immediately to seek care from their primary care physician to be tested.

If you have traveled to areas where continued outbreaks of COVID-19 have been confirmed, with symptoms of fever, cough, shortness of breath, or gastrointestinal issues within 14 days or suspect you have been in contact with someone with COVID-19, we ask that you self-quarantine and contact your Primary Care Physician to seek medical attention.

We hope these actions provide confidence during these uncertain times. As the updates continue to unfold, we will be taking all proper actions and precautions.

On behalf of everyone at MSCA, thank you for your continued trust in us.
